

DAY 1 – 18 JANUARY 2018			
7:00 am	Breakfast session		
	Sponsored breakfast	Paediatric Spine	Arjun Dhawale, Kenny David & team
7:45 am	Welcome and announcements		
8:00 am	Current concepts	10 minutes – 3 talks with 5 minutes discussion	Chairpersons Mckenzie W Venkatadoss K
		Management of Osteochondral defects in Children	Lucas Murnaghan
		Diagnosis of Skeletal dysplasia	Andrew Howard
		Management of cystic lesions of the bone	Mihir Thacker
8:35 am	POSI invited research papers	8 minutes + 2 min discussion – 6 talks	Chairpersons Eva Ponten Ashok Johari
		Is open reduction alone sufficient in toddlers with DDH ?	Ramani Narasimhan
		Research Collaborations with the IHD registry – how can India contribute ?	Alaric Aroojis
		Tendoachilles shortening in CP? A revisit?	Dhiren Ganjwala
		Shelf osteotomy and trochanteric epiphyseodesis in advanced stage of Perthes disease	S P Das
		What factors influence union and refracture of congenital pseudoarthrosis of the tibia ?	Hitesh Shah
		Subscapularis release in OBPP- A cadaveric study	Maulin Shah
9:35 am	Research Papers	10 minutes - 3 talks with 5 minutes discussion	Chairpersons Kapil Gangwal Andrew Howard
		Race running : a way of training non walking children with CP	Eva Ponten
		Patient reported outcomes in Paediatric Orthopaedics	Unni Narayanan
		Vellore RCSENG training program for children's surgical teams from district hospitals	Vrisha Madhuri
10:10 am	TEA		
10:25 AM	Best paper session	8 minutes + 2 minutes discussion – 10 papers	Chairpersons Sriram K Arun Goel
		Correction of deformities in patients with birth brachial plexus palsy	Speakers Praveen Bharadwaj
		Use of Ganga hospital injury severity score for determining salvage vs amputation in type 111B injuries	Sai Prasanth
		Retrospective study of a new protocol in treating CPT	Kailas Sarathy
		Natural history of congenital antero-lateral bowing of Tibia	Hitesh Shah
		Creatine kinase - a predictable bio-marker for diagnosis of acute	Ajai Singh

		compartment syndrome	
		Pectoralis major transposition to improve shoulder abduction in residual OBPPurries	Maulin Shah
		Outcomes of augmenting TENS with temporary external fixator in comminuted femur shaft fractures	Sukalyan Dey
		Validity and utility of IHDI classification in DDH management	Sameer Desai
		Assessment of safety and efficacy of pedicle screw with free hand technique in children with spinal deformities	Arjun Dawale
		Clinical outcome of Perthes disease at skeletal maturity	Kumar Amarendra Singh
12:05 pm	POS I ORATION	Dr. Benjamin Joseph	Chairpersons Ramani Narasimhan Alaric Aroojis
		<i>"THULABHARAM, the balance sheet and the accounting equation"</i>	
12:45 pm	Debate	15 minutes	Chairpersons Paulo Selber Gopakumar TS
	I will do an instrumented gait analysis before operating on a CP child		
		Yes	Jayanth Sampath
		No	Unni Narayanan
01:00 pm	LUNCH		
01:45 pm	Free Papers	5 papers of 5 minute duration and 2 min discussion	Chairpersons Dr. Shah Alam Khan Dr. N K Das
		Study on factors determining loss of reduction in paediatric supracondylar fractures	Speakers Manas Maji
		Is the acetabulum retroverted ?- a study on acetabular morphology	Katragaddasai
		Functional outcome of ECRT in paediatric sarcomas	Shrijith
		Role of modified Ponseti for atypical clubfeet	Kumar keshav
		primaryosteocondroplasty in mild/moderate SCFE	S Muthukumar
02:20 pm	Conference theme	Research and Training - interactive session	Chairpersons Vrisha Madhuri Gopinath Menon
	TRAINING	7 minutes - 5 talks	PANELIST
		Outreach to LMIC	Andrew Howard
		Fellowship opportunities in Canada	Unni Narayanan
		Bidirectional trainee exchange opportunities and challenges	Sanjeev Sabharwal
		Training opportunities in Australia	Michael Johnson

		Training opportunities in UK	Fergal Monsell
2:55 pm	12 minutes + 3 minutes discussion	Mentorship for budding trainees	Joshua Hyman
03:10 pm	Skills for the Academic Pedipod	Interactive session	Chairpersons Premal Naik P N Gupta
		10 minutes each	
		Social media in promoting Paediatric Orthopaedics	Taral Nagda
		AI aided learning	Venki Muthanna
		Predatory journals	Saw Aik
03:40 pm	TEA		
04:00 pm	Case Discussion session		Chairpersons Makoto Kamegaya Thomas Palocaren
		Case based learning in DDH	John Wedge
		Mini symposium on limb reconstruction	Chairpersons Sanjeev Madan Cherian Kovoov
	10 minutes + total 5 minutes discussion - 2 talks	CHAOS in the management of complex limb deformity	Fergal Monsell
		Lessons learnt from guided growth in Blounts disease	Sanjeev Sabharwal
05:05 pm	GB FOLLOWED BY BANQUET AT HILLSIDE RESORT		
DAY 2 – 19 JANUARY 2018			
7 -7:45 am	Breakfast	Networking session	All faculty
07:45 am	Free papers	5 papers of 5 minute duration and 2 min discussion	Chairpersons VVJ Somaraju Sahas Bala
		Influence of sternomastoid polarity in bipolar release for congenital muscular torticollis	Speakers Gaurav Jandial
		Factors affecting compliance among clubfoot patients	Gunjar Jain
		Comparison of outcome between idiopathic and non- idiopathic congenital vertical talus treated by STR	Monish Malhotra
		Neonatal septic arthritis in a tertiary care hospital- retrospective study	B Pasupathy
		Ongoing surveillance following non-operative management of hip dysplasia in infants	Caroline Blakey
08:20 am	Hip Preservation	10 minutes + total 5 minutes discussion – 2 talks	Chairpersons Prasad Gourineni Manoj Padman
		Intra-capsular femoral osteotomies	Sanjeev Madan
		How to shorten the learning curve in hip surgery	Millis M B

08:45 am	Invited Lectures	10 minutes + total 5 minutes discussion – 2 talks	Chairpersons Saw Aik Anil Pandey
		Polydactyly – Lessons from the world’s largest series	H Kawabata
		Our transition in the treatment of Perthe’s disease	Makoto Kamegaya
09:10 am	Invited Lectures – Neuromuscular session	10 minutes + total 5 minutes discussion – 3 talks	Chairpersons Narasimha Rao Abhay Gahukamble
		Dosing in SEMLS	Paulo Selber
		Management of common acquired foot deformity in neuromuscular disease	Michael Johnson
		SHUEE in decision making for upper extremity	Danny Weigl
09:45 am	COFFEE		
10:00 am	Case Discussion on difficult scenarios in Orthopaedics	Ashok Johari	Chairpersons Ajai Singh Shankar R
10:40 am	POSI invited research papers	8 minutes + 2 minutes discussion – 5 talks	Chairpersons John Wedge Sunil Wijayasinghe
		Stosstherapy in Nutritional Rickets- Mysteries unveiled	Vikas Gupta
		Arthroscopy assisted open reduction in DDH	Sanjay Sarup
		Closed centralization with percutaneous technique for Heikel 4 Radial club hand	Sandeep Patwardhan
		Ultrasound in assessing hip vascularity in infantile sepsis	Rujuta Mehta
		Single stage rotational correction of Radio-ulnar synostosis	Viraj Shingade
11:30 am	Clubfoot Symposium	7 minutes each lecture + total 10 minutes discussion	Chairpersons Ranjit Deshmukh Vijay Sriram
		Management of atypical clubfoot – pearls and pitfalls	Neeraj Garg
		CURE Clubfoot program	Mathew Varghese
		Relevance of Ilizarov correction in clubfoot- When, how and where?	Thomas Palocaren
12:00 pm	Case Discussion – Syndromes of Orthopaedic importance	William Mackenzie	Chairpersons Tushar Agarwal Hitesh Shah
12:40 pm	Free papers	7 papers of 5 minutes duration + 2 min discussion	Chairpersons B Pasupathy Anirban Chatterjee
		Mid-term results of Ponseti method correction in Clubfoot	Speakers Sameer Desai
		Management of hip dislocation by medial approach	M Suresh Babu
		Current trends in clubfoot management- questionnaire based approach	Rajiv Negandhi

		Efficacy of club foot bracing in walking children	Sudhir Ravindran
		Challenges of Iliazarov in correction of relapsed, resistant and neglected clubfeet	Ranjit Cherian
		Study of rotational malalignment of paediatric flexible flatfeet	Ajai Singh
		Kinetic and kinematic analysis of gait in Children with osteogenesis imperfecta	Nirmal Raj Gopinathan
01:30 pm	LUNCH
